**Success Story**

## **IRP Technology developed integration adapters for VTB24**

For CJSC ‘Vneshtorgbank Roznechnye Uslugi’ which operates under ‘Vneshtorgbank 24’ trademark, German integrator IRP Technology has developed integration services. The services enable interaction between bank information systems and Sonic environment.

XML format for information requests is used for solving this task. A package of services and adaptors for processing information requests received from transport bus has been developed as well.

**CJSC Vneshtorgbank Roznechnye Uslugi** (general licence of Central bank of Russian Federation for delivering banking operations № 1623) which operates under ‘**Vneshtorgbank 24**’ trademark is bank subsidiary to OJSC Vneshtorgbank. Vneshtorgbank 24 provides service to individuals, self-employed entrepreneurs and small business companies.

Shareholders of CJSC Vneshtorgbank Roznechnye Uslugi are: OJSC Vneshtorgbank (95,3919%) and Russian fund for federal property (4,0471%). Authorized capital stock of the bank is 10,3 bln. rubles.
